 - all of the above
-

Question Prompt: 5

Total Points: 1

If a baby is too large it might have to be removed through an incision in the uterus called a(n)

- abortion
 - cephalic version
 - fetal presentation
 - Cesarean section
-

Question Prompt: 6

Total Points: 1

The manner in which the fetus appears to the examiner during delivery is called

- the Apgar score
 - fetal presentation
 - fetal monitoring
 - cephalic version
-

Question Prompt: 7

Total Points: 1

An acute lung disease in a pre-mature newborn

- meconium aspiration syndrome
 - hyaline membrane disease
 - erythroblastosis fetalis
 - hydrocephalus
-

Question Prompt: 8

Total Points: 1

Narrowing of the opening of the stomach to the small intestine in an infant

- pyloric stenosis
 - hyaline membrane disease
 - hydrocephalus
 - pyloric dilation
-

Question Prompt: 9

Total Points: 1

Condition resulting from inhalation of a thick, sticky black substance by the newborn.

- hydrocephalus
 - hyaline membrane disease
 - erythroblastosis fetalis
 - none of the above
-

Question Prompt: 10

Total Points: 1

Hemolytic disease of the newborn

- hyaline membrane disease
 - erythroblastosis fetalis
 - hydrocephalus
 - none of the above
-

Question Prompt: 11

Total Points: 1

Accumulation of fluid in the spaces of a newborn's brain.

- hyaline membrane disease
 - meconium aspiration syndrome
 - hydrocephalus
 - none of the above
-

Question Prompt: 12

Total Points: 1

endometrial carcinoma is a benign muscle tumor in the uterus.

- True
 - False
-

Question Prompt: 13

Total Points: 1

A benign muscle tumor in the uterus is a leiomyoma.

- True
 - False
-

Question Prompt: 14

Total Points: 1

A malignant condition that can be diagnosed by a pap smear, revealing dysplastic changes in cells is cervical carcinoma

- True
 - False
-

Question Prompt: 15

Total Points: 1

Placental carcinoma is a malignant tumor of the placenta.

- True

False

Question Prompt: 16

Total Points: 1

When a placenta covers the cervical opening it is referred to as _____ and a _____ is required

- abruptio placenta, abortion
 - placenta previa, abortion
 - abruptio placenta, C-section
 - placenta previa, C-section
-

Question Prompt: 17

Total Points: 1

premature separation of a normally implanted uterus is called placental previa

- True
 - False
-

Question Prompt: 18

Total Points: 1

A cystadeno carcinoma is a malignant tumor of the ovary

- True
 - False
-

Question Prompt: 19

Total Points: 1

Cervicitis, or inflammation of the cervix, can be caused by STD's.

- True
 - False
-

Question Prompt: 20

Total Points: 1

pre-eclamsia is a condition during pregnancy or shortly after, marked by high blood pressure, protein in the urine, and edema

- True
 - False
-

Question Prompt: 21

Total Points: 1

It is possible for uterine tissue to be located outside the uterus and is a condition called

- True - cervicitis
 - False
 - True - endometrial carcinoma
 - none of the above
-
