

Integumentary Med Terms and Skin

Question Prompt: 1

Total Points: 1

A black pigment found in the epidermis is

- keratin
 - melanin
 - sebum
 - collagen
-

Question Prompt: 2

Total Points: 1

A hard protein material found in epidermis, hair and nails is

- collagen
 - melanin
 - keratin
 - sebum
-

Question Prompt: 3

Total Points: 1

The connective tissue layer of the skin is the

- epidermis
 - dermis
 - stratum corneum
 - cuticle
-

Question Prompt: 4

Total Points: 1

Oil producing organ

- sebum
 - adipocyte
 - lipocyte
 - sebaceous gland
-

Question Prompt: 5

Total Points: 1

Connective tissue protein

- keratin
 - albumin
 - collagen
 - dermis
-

Question Prompt: 6

Total Points: 1

A fat cell is a(n)

- adipocyte
 - lipocyte
 - leukocyte
 - Both A and B
-

Question Prompt: 7

Total Points: 1

The deepest region of the epidermis is the

- stratum corneum
 - stratum basale
 - basal layer
 - Both B and C
-

Question Prompt: 8

Total Points: 1

Flat scale like cells

- stratum corneum
 - squamous epithelium
 - stratum basale
 - dermis
-

Question Prompt: 9

Total Points: 1

A cell containing dark pigment

- keratinocyte
 - leukocyte
 - adipocyte
 - melanocyte
-

Question Prompt: 10

Total Points: 1

The middle layer of the skin

- epidermis
 - dermis
 - hypodermis
 - hyperdermis
-

Question Prompt: 11

Total Points: 1

oily substance secreted by sebaceous glands

- keratin
 - sebum
 - melanin
 - sweat
-

Question Prompt: 12

Total Points: 1

A structural protein found in skin and connective tissue

- keratin
 - melanin
 - albumin
 - collagen
-

Question Prompt: 13

Total Points: 1

The half moon shaped white area at the base of a nail is the

- stratum corneum
 - lunula
 - cuticle
 - basal layer
-

Question Prompt: 14

Total Points: 1

A band of epidermis at the base and sides of the nail plate is the

- lunula
- dermis
- cuticle
- stratum corneum

Question Prompt: 15

Total Points: 1

The outermost layer of epidermis, which consists of flattened, keratinized cells, is the

- basal layer
 - stratum basale
 - cuticle
 - stratum corneum
-

Question Prompt: 16

Total Points: 1

The following questions refer to the diagram of the skin. #1

- dermis
 - epidermis
 - subcutaneous tissue
 - sweat gland
-

Question Prompt: 17

Total Points: 1

Structure #2

- epidermis
 - dermis
 - free nerve ending
 - subcutaneous tissue
-

Question Prompt: 18

Total Points: 1

Structure #3

- dermis
 - subcutaneous tissue
 - epidermis
 - arteriole
-

Question Prompt: 19

Total Points: 1

Structure #4

- free nerve ending
- follicle

- sweat gland
 - sebaceous gland
-

Question Prompt: 20

Total Points: 1

Structure #5

- follicle
 - sweat gland
 - sebaceous gland
 - free nerve ending
-

Question Prompt: 21

Total Points: 1

Structure #6

- arteriole
 - free nerve ending
 - venule
 - nerve
-

Question Prompt: 22

Total Points: 1

Structure #7

- arteriole
 - venule
 - free nerve ending
 - nerve
-

Question Prompt: 23

Total Points: 1

Structure #8

- arteriole
 - nerve
 - venule
 - free nerve ending
-

Question Prompt: 24

Total Points: 1

Structure #9

- cuticle
 - hair shaft
 - follicle
 - sebaceous gland
-

Question Prompt: 25

Total Points: 1

Structure #10

- follicle
 - sebaceous gland
 - sweat gland
 - free nerve ending
-
